

How to Use This Guide:

Each section of this guide pairs the corresponding slide image with its facilitation notes, presented one after another so you can follow along easily while presenting. Sections are clearly labeled to match the flow of the presentation. Facilitator notes, along with any relevant icons, appear in the margin alongside each slide — keeping your talking points, transitions, and reminders visible at a glance without interrupting the flow of the material.

Supplies needed

Activity

Supplies:

- Printed image on durable material (cardstock or canvas)
- Rhinestones in the colors needed for the project (include varying sizes within each color for depth)
- A plastic storage container, if rhinestones come packaged in bags rather than reusable containers
- Rhinestone glue
- A wax pen
- A rhinestone/diamond art tray
- Tweezers (optional, but helpful for precision)
